Near the mouth of Coal Creek, where the Company has large quantities of lands sait water has been discovered equal in quality to the sanawha. This water was procured some 35 years ago by boring, soon after, the On ondaga salt finding its way down the Wabash and Krie Canal, Mr. Thomas, the proprietor, finding himself un-able to compete with it, abandoned the manufacture. In his boring he encountered that which recently dis-closed facts prove to have been coal oil. Those lands all lie in close proximity to the Wabash and Erie Canal, some of them upon its banks. Mr. John McManomy, the business agent of the com-pany, Las returned from a tour of observation of the oil regions of Pennsylvania, convinced that the lands leased surface indications present themselves, a stong analogy in the oil and mineral substances as found on French Creek, Pennsylvania, where the greatest quantity and the most valuable oil is found Mr. McManomy has purchased for the company the most approved machinery, with all the fixtures necessary for operation, and is pre-paring with experienced workmen the speedy develop-ment of the hidden treasure of the lands of the company.
